

UNDERGRADUATE FELLOWSHIPS, 2023-2024

(\$2,000)

Application deadline: 19 March 2023

OVERVIEW:

The Menard Family George Washington Forum (GWF) will award undergraduate fellowships for the 2023 - 2024 academic year. The award winners will participate in a bi-weekly reading group and will meet with all GWF visiting speakers. The fellowships are each worth \$2,000 and are open to students in all majors and colleges. The 2023–2024 GWF undergraduate fellows will attend a fully-funded weeklong travel seminar in May 2024. Past seminars included visits to London, Oxford, and Cambridge.

ELIGIBILITY:

- Applicants must be undergraduates at Ohio University.
- Applicants may be enrolled in any college within Ohio University.
- Applicants must have a 3.5 GPA and/or excellent standardized test scores (ACT, SAT).

APPLICATION DETAILS:

To apply for a GWF undergraduate fellowship, please assemble the following:

1. DARS report
2. Résumé
3. Statement (1 page) of career goals and how a GWF undergraduate fellowship would benefit you
4. Brief essay (500 words) responding to the following excerpt from Ian Leslie:

“A society that values order above all else will seek to suppress curiosity. But a society that believes in progress, innovation and creativity will cultivate it, recognising that the enquiring minds of its people constitute its most valuable asset [...] The most fundamental reason to choose curiosity isn’t so that we can do better at school or at work. The true beauty of learning stuff, including apparently useless stuff, is that it takes us out of ourselves, reminds us that we are part of a far greater project, one that has been underway for at least as long as human

beings have been talking to each other. Other animals don't share or store their knowledge like we do."

"Life would be more straightforward if we knew what we needed to find out, if we were told at birth exactly what we need to know to be happy. But in a complex world, it's impossible to know what might be useful in the future. It's important, therefore, to spread our cognitive bets. Curious people take risks, try things out, allow themselves to become productively distracted. They know that something they learn by chance today may well come in useful tomorrow or spark a new way of thinking about an entirely different problem."

5. Reference letter from an Ohio University faculty member.

SUBMISSION INSTRUCTIONS:

Submit all application material to Prof. Cort Rodet (rodet@ohio.edu). Interviews will be held in-person before the end of the Spring semester. For more information about the GWF, visit www.ohio.edu/washingtonforum.
